WORK EXPERIENCE

Python Django Angular Full Stack Web Development Intern
Luminar Technolab,Kochi

06/2023 - Present

Pipeline Technical Director
Jackfruit productions PTY LTD,34 Ager Cottage Crescent Blair Athol NSW 2560 Australia

05/2022 - 05/2023

A Pipeline Technical Director is the bridge between the workflows of each department and the production as a whole. They are software developer who take care of the frictionless communication while supporting each stage with clear guidelines, tools and support. If you only have to worry about your own work a pipeline TD is at play. They find solutions on how you receive data from previous departments, unify your working environment and simplify exporting to the next department to a single button click.(Using Python Language)

PERSONAL PROJECTS

GLOBAL MEDIFILE

- .Net Framework 4.5 Technology used. Front end : ASP.Net MVC4 with C# code behind, Back end : MS SQL Server 2008 R2, Platform : Windows 2000/XP
- The project entitled 'GLOBAL MEDIFILE' is an online application. Multi specialist hospitals can register in this site, and give their patients details. Patient details include the general details of a patient, address, medical records etc. In addition to the case history, each patient has a unique username and ID, which is used to identify the patient globally.If a patient admitted in a hospital by seriously injured,using his GIN doctors can find his previous case history.So treatment will be easy
